

A close-up, shallow depth-of-field photograph of a display case filled with various styles of sunglasses. The sunglasses are arranged in rows within a light-colored, segmented tray. Some sunglasses have dark lenses, while others have lighter or colored lenses. The focus is sharp on the sunglasses in the foreground, while the ones in the background are blurred.

OPTICA TAXIS

OPTICA Taxis

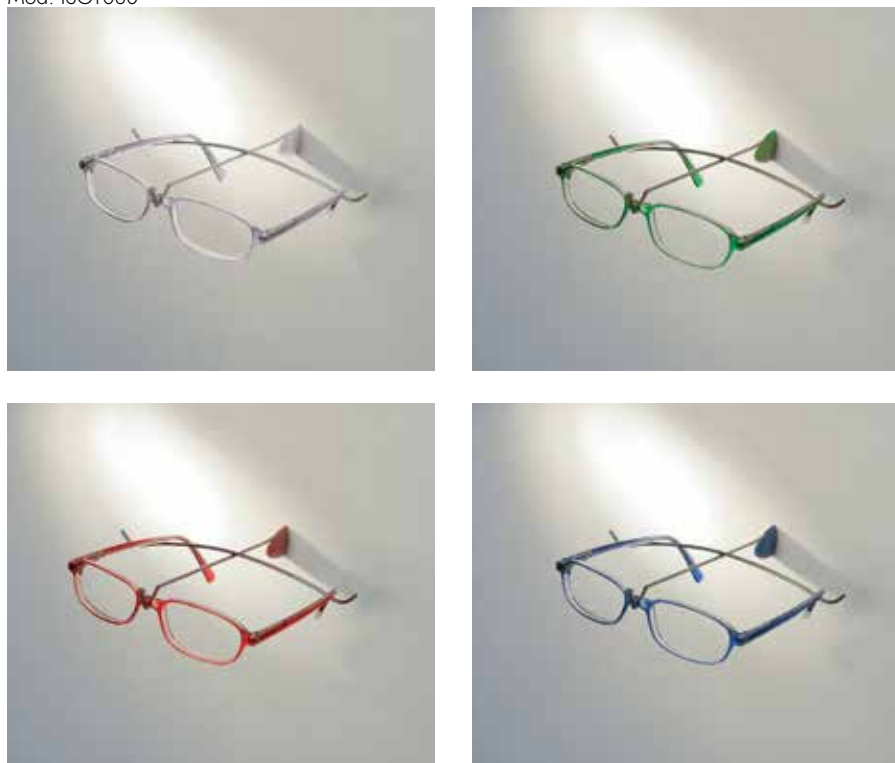

Supporti occhiali

OPTICA TAXIS, è stato realizzato in alluminio studiato espressamente per soddisfare tutte le esigenze del negozio di ottica; l'alluminio è stato preferito per le sue doti di eleganza, leggerezza e soprattutto per la sua riciclabilità. Sono state realizzate nuove cuvette in materiale plastico vellutato con impugnature ergonomiche ed è stata aggiunta una cuvette per contenere i flaconcini delle lenti a contatto.

Le nuove cassetiere possono essere realizzate in tre modi:

- Struttura autoportante modulare forata passo 35mm. Dotata di piedini regolabili e fornita in differenti altezze.
- Struttura ad incasso forata passo 35mm. progettata per essere inserite direttamente nei banchi vendita oppure in mobili contenitore
- Cassetto con guide da avvitare direttamente nel mobile.

Mod. ISOT080

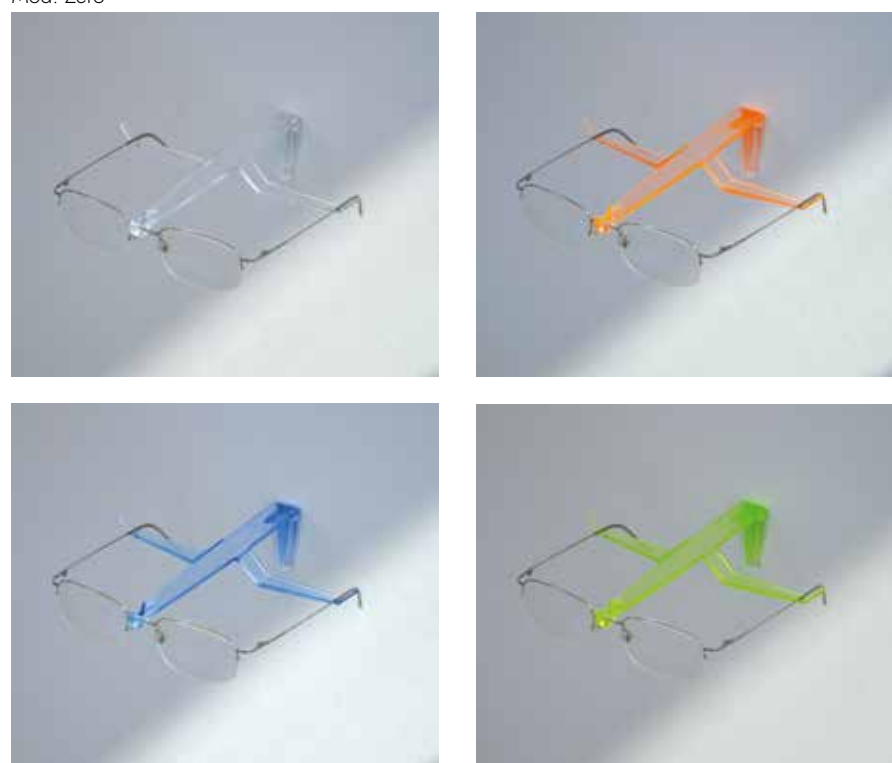

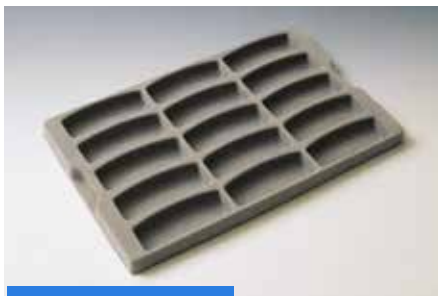

***IN OPTICA TAXIS** program, a drawer has been manufactured in aluminium, designed to satisfy all the needs of optical shops; aluminium has been preferred for its elegance, lightness and over all recyclibility. New cuvettes have been developed in velvet covered plastic material with ergonomic handgrip and also the contact lens drawers are new. The new cabinets can be produced in three different styles: Modular self supporting structure, with a 35 mm. step, equipped with adjustable feet and available in different heights.*

Built-in structure with a 35 mm. step, to be inserted under underbenches.

Drawers with runners attachable directly on the wood cabinet.

Mod. Zero

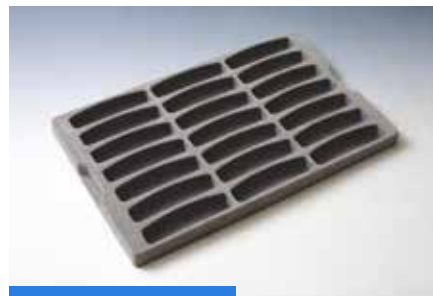

CUVETTE 15 SEDI (550X350X30)
Cuvette 15 places

CUVETTE 18 SEDI (550X350X30)
Cuvette 18 places
